

Shannon Frederick

Results-driven web developer. Collaborative and ardent about both problem solving and design. Seeking a career as a web developer with a company that promotes both creative thinking and technical growth.

Professional Experience

Vitamix, Olmsted Falls, OH — Web Developer III

February 2020 - PRESENT

Enhanced and maintained vitamix.com using technologies including Java, Oracle Commerce, Apache, CSS, and HTML5 with the goal of architecting a new web platform solution.

- Analyzed web platform to discover pain points and technical constraints.
- Wrote and issued a request for proposal, loosely outlining business and technical requirements for the future web platform.
- Developed quality of life improvements for the site such as mobile optimizations and tracking pixels.
- Designed and created various landing pages and articles.
- Provided HTML and CSS mentoring and empowerment to the marketing team.
- Worked collaboratively with multiple departments to set priorities and ensure that business needs were being met.

Dealer Tire, Cleveland, OH — Web Software Engineer

August 2017 - February 2020

Responsible for engineering and maintaining three ecommerce platforms using technologies including JavaScript, Vue, Nginx, Node, CSS, Sass, HTML5, and Git.

- Operated as team lead and platform owner for the ecommerce web applications and services.
- Led development efforts to migrate clients from legacy code to a new web platform.
- Collaborated with stakeholders to ensure expectations of product delivery were met.
- Mentored and guided new hires towards success.
- Delivered architecture solutions and technical visions to the platform.
- Managed and delegated tasks in an agile environment.

Education

Tech Elevator, Cleveland, OH — Certification

May 2017 - August 2017

Graduated from a 14 week .NET coding bootcamp, learning how to develop full-stack web applications using technologies including C#, ASP.NET MVC, HTML5, CSS, jQuery, Microsoft SQL Server, and Git.
